

RA Job Post

Dr. Yang You (<https://www.hkubs.hku.hk/people/yang-you/>), Assistant professor in Finance at HKU, is looking for one research assistant for a project joint with Prof. Dave Donaldson (<https://economics.mit.edu/people/faculty/dave-donaldson>) on Chinese agricultural productivity since 1949 with applied micro and trade approaches.

Qualification:

1. **Familiar with ArcGIS** or other software to process geographical information is necessary. Exposure to shape files is crucial.
2. Proficient in Stata Programming, Python is a plus but not required.
3. Knowledge in empirical development economics/agricultural economics (environmental suitability score) is a plus but not required.
4. Theoretical knowledge in trade theory (comparative advantages, marginal productivity) and resource allocation inefficiency is a plus.

Expected Time Commitment: 20 hours per week minimum

Please email me your CV and a short bio with your experience with GIS (geographic information systems) software.
